NU-LINE ACQUIRES CERTAIN ASSETS FROM MOS/ATS MFG INC

HAMILTON, ONTARIO – Nu-Line Products, a member of Fontaine Spray Suppression Company, is pleased to announce that they have acquired certain assets from MOS/ATS Mfg Inc. including transfer of their legal name.

Nu-Line has been in operation for more than 25 years and our growth over that time has been predominantly internal. We have attracted high-quality, committed professionals and invested in their training, development and growth. Our growth has been in no small way also directly related to the success our customers have had in their business.

Nu-Line will offer many of the same and similar products for spray suppression that MOSS/ATS Mfg Inc. has in the past. However, we will not be offering accessories, bumper guides and some other miscellaneous product that they had in their current catalogue.

There are several things we want to point out:

- The MOSS/ATS web site will redirect you to www.nuline.ca
- The MOSS/ATS 1-800 number will redirect to Nu-Line Products

We know that you have been doing business with both Nu-Line and MOSS/ATS over the years and we hope we can continue to offer you great product, delivery and service.

If you have any questions about this news and what it will mean for you, please contact Chris and Brad in customer service at 905-643-5375.

Fontaine Spray Suppression supplies a complete line of durable spray suppression systems including tandem fenders, quarter fenders, light bars and mud flap brackets under the Fleetline, Nu-Line and Hogebuilt brands and is part of Marmon Highway Technologies, LLC, a Berkshire Hathaway Company. Marmon Highway Technologies (MHT) supports the transportation industry worldwide with a wide range of high-quality products and services.
